A super event coming this summer is a celebration of the **100th Anniversary of the founding of the Chrysler Corporation**. To memorialize this event, the **Chryslers at Carlisle** group (Carlisle PA) has reached out to all the major Chrysler Car Clubs (the Walter P Chrysler Club, The National DeSoto Club, The Airflow Club of America, the Plymouth Owners Club, to name a few) to try to get an example of every Chrysler model ever manufactured, at this historic event. For those that have attended the **Chryslers at Carlisle** event in the past, you know that everything they do is first class! I expect this 2025 show to be a step above. I know a few of us in the Club are making plans as I'm positive there will be some exceptional examples of rarely seen Chrysler Products from all eras. Discount tickets are currently offered online (Google 'Chryslers at Carlisle' & 'chrysler100.com' for details). Please remember, as with most of these major shows, get info & book your lodging as soon as possible since most local lodgings sell out quickly. The show (also listed in our Event Calendar in this newsletter) is **July 11-13, 2025**. Please contact me if you have questions and I'll try to help. **tvk**

Your vote is in and these five win!

THE NEWEST NEW CARS IN 20 YEARS

In left foreground, Plymouth; right, Dodge; center, De Soto; rear left, Imperial; and rear right, Chrysler. With a total of 55 models to meet all price ranges - with over 400 other combinations to choose from, there's a Chrysler Corporation car that's right for you!

You and your neighbors are giving these 5 cars the most thunderous reception in automotive history. For here is genuinely new leadership in styling and engineering—to give you a whole new concept of driving pleasure!

COMPARE THE STYLE! In seeing these cars you recognized The New Shape of Motion as not simply word-of-mouth styling but a brilliant new concept in design. Here, in America's lowest, roughest cars in the class, unlettered buyers that won instant acclaim. Other cars are reaching toward this styling—these cars have it now!

COMPARE THE RIDES! In revolutionary new Torque-Air, you discovered that Chrysler Corporation engineers have achieved the first major, atom-theorized suspension advance in 33 years. You found that with Torque-Air, the car virtually planes away all road roughness, takes tight turns without lean, stops without dive.

COMPARE THE VALUES! With new Packington Europe-Fin transmission offering unmatched smoothness and surge... new Torq-Command Brakes that put less toe pressure to greater effect... exclusive Full-Time power steering... everyone agrees these cars have road-wisdom all their own! If you haven't driven one—do so, now!

CHRYSLER CORPORATION > THE FORWARD LOOK

PLYMOUTH · DODGE · DE SOTO · CHRYSLER · IMPERIAL
